Title:	New Version of MCU in Production Announcement		
Model:	Bill Acceptor		
Control Number:	FAE_20221111_01	Date:	2022/11/11

Product Announcement

Dear Valuable Customers:

ICT has completed the implement of new version of MCU in production.

In order to ensure bill acceptors are working properly, **please keep in mind that you always use the latest firmware version** for firmware updates. Otherwise the new version of MCU bill acceptors might not work after a firmware updated with the previous firmware version.

Please see the table below and keep in mind for the firmware released date, both new and old bill acceptors are supported. If the firmware in your hand has a release date earlier, please contact ICT branches & distributors for a confirmation or request for a firmware update.

Model	Firmware Released Date
FP004	2020.05.04
L70	2020.04.30
L77F	2019.11.27
L83	2020.10.15
TAO-A	2020.08.18
TAO-A IIU	2021.08.19
TAO-V IIU	2021.02.17
S7AII	2020.06.29
LX7	2020.11.03
LX7-A	2021.06.08
LV77	2021.03.29

The firmware released date can be found in the firmware PDF attachment as marked.
